DIARY NOTES

DD/S [REDACTED]

28 June 1960

25X1A9a

1. [REDACTED] was in to present me with his proposed new emergency relocation plan and I signed memoranda to the Deputy Director (Plans) and the Deputy Director (Intelligence) asking for their comments on it.

2. Ed Saunders reported that he was having some difficulty with the Bureau of the Budget on our most recent apportionment request involving the shift of funds between major components and specifically the purchase of unitized furniture. The Bureau seems to have no recollection of our earlier agreement that they would not question the transfers among major components as long as they did not exceed 5% and we are certainly well within those limits.

4. [REDACTED] was in to brief me on the check cashing facilities of the Credit Union. I was rather surprised to learn that last payday the Credit Union cashed [REDACTED] checks [REDACTED] John believed that this was a light week and that normally the total would be closer to [REDACTED] I would assume that in the new building the number of people who would cash checks would be a little greater than at present. On payday the Credit Union now [REDACTED] I asked John to get together with [REDACTED] on this problem and to see what could be done to insure that we had adequate check cashing facilities without unusually long lines queuing. I also telephoned H. S. and asked him to work with John in finding some solution to this problem.
